

Annual CPNI Certification
47 C.F.R. §64.2009(e)
EB Docket No. 06-36

Name of Company: United American Technology, Inc.
Form 499 Filer ID: 825082
Name of Signatory: Tom Anderson
Title of Signatory: President

I, Tom Anderson, hereby certify that I am an officer of United American Technology, Inc. ("UAT") and that I am authorized to make this certification on behalf of UAT. I have personal knowledge that UAT has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules, to the extent that such rules apply to UAT or to any of the information obtained by UAT. *See* 47 C.F.R. §64.2001 *et seq.*

Attached to this certification is an accompanying statement explaining UAT's procedures to ensure that it complies with the requirements set forth in §64.2001 *et seq.* of the Commission's rules to the extent that such requirements apply to UAT or to the information obtained by UAT.

UAT has not taken any actions against data brokers before state commissions, state or federal courts, or the FCC in the past year. UAT has not received any customer complaints in the past year concerning the unauthorized release of CPNI. UAT has no information, other than information that has been publicly reported, regarding the processes that pretexters are using to attempt to access CPNI.

Signed: 

Date: 2-25-09

United American Technology, Inc.

STATEMENT OF POLICY REGARDING CUSTOMER PROPRIETARY NETWORK INFORMATION

In accordance with Section 222 of the Communications Act and the Federal Communications Commission's ("FCC") CPNI Rules (47 C.F.R. Section 64.2001, *et seq.*), United American Technology, Inc. ("UAT") files this Statement of Policy outlining the Company's procedures for accessing, using and storing Customer Proprietary Network Information ("CPNI").

UAT provides telecommunications services to retail customers. Therefore, because UAT may access, use, or store CPNI when providing these types of services, the Company undertakes the steps outlined in this Statement of Policy to protect CPNI from unauthorized access or misuse.

Definition of CPNI

Under federal law, CPNI is certain customer information obtained by a telecommunications provider during the course of providing telecommunications services (including interconnected VoIP) to a customer. This includes information relating to the quantity, technical configuration, type, destination, location, and amount of use of a telecommunications service subscribed to by any customer of a telecommunications carrier.

Examples of CPNI include information typically available from telephone-related details on a monthly bill such as the types of services purchased by a customer, numbers called, duration of calls, directory assistance charges, and calling patterns. CPNI does not include names, addresses, and telephone numbers, because that information is considered subscriber list information under applicable law.

Use of CPNI

It is the policy of UAT not to use CPNI for any activity other than as permitted by applicable law. Any disclosure of CPNI to other parties (such as affiliates, vendors and agents) occurs only if it is necessary to conduct a legitimate business activity related to the services already provided by UAT to the customer. If UAT is not required by law to disclose CPNI or if the intended use is not otherwise permitted under FCC Rules, the Company will first obtain the customer's consent prior to using or sharing CPNI.

UAT follows industry-standard practices to prevent unauthorized access to CPNI by a person other than the subscriber or Company. However, UAT cannot guarantee that these practices will prevent every unauthorized attempt to access, use, or disclose personally identifiable information.

CPNI Notification

UAT notifies customers immediately of any account changes, including address of record, authentication, online account and password related changes.

Employee Training Policies

All employees of UAT will be trained as to when they are, and are not, authorized to use CPNI.

Specifically, UAT prohibits its personnel from releasing CPNI based upon a customer-initiated telephone call except under the following three (3) circumstances.

- 1) When the customer has pre-established a password;
- 2) When the information requested by the customer is to be sent to the customer's address of record; or
- 3) When UAT calls the customer's telephone number of record and discusses the information with the party initially identified by customer when service was initiated.

Disclosure to Business Customers

UAT may negotiate alternative authentication procedures for services that the Company provides to business customers that have a dedicated account representative and a contract that specifically addresses the protection of CPNI.

Disciplinary Procedures

UAT has informed its employees and agents that it considers compliance with the Communications Act and FCC Rules regarding the use, disclosure, and access to CPNI to be very important.

Violation by company employees or agents of such CPNI requirements will lead to disciplinary action (including remedial training, reprimands, unfavorable performance reviews, probation, and termination), depending upon the circumstances of the violation (including the severity of the violation, whether the violation was a first time or repeat violation, whether appropriate guidance was sought or received from a supervisor, and the extent to which the violation was or was not deliberate or malicious).

Use of CPNI in Sales and Marketing Campaigns

UAT does not use CPNI in any marketing campaigns.

However, if UAT does use CPNI in marketing campaigns, the Company will maintain a record of all sales and marketing campaigns that use the CPNI. The record will include a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as part of the campaign.

UAT will also implement a system to obtain prior approval and informed consent from its customers in accordance with the CPNI Rules. This system will allow for the status of a customer's CPNI approval to be clearly established prior to the use of CPNI.

Prior to commencement of a sales or marketing campaign that utilizes CPNI, UAT will establish the status of a customer's CPNI approval. The following sets forth the procedure that will be followed by the Company:

- Prior to any solicitation for customer approval, UAT will notify customers of their right to restrict the use of, disclosure of, and access to their CPNI.
- UAT will use opt-in approval for any instance in which the Company must obtain customer approval prior to using, disclosing or permitting access to CPNI.
- A customer's approval or disapproval remains in effect until the customer revokes or limits such approval or disapproval.
- Records of approvals are maintained for at least one year.
- UAT provides individual notice to customers when soliciting approval to use, disclose or permit access to CPNI.
- The CPNI notices sent by UAT comply with FCC Rule 64.2008(c).

UAT will also establish a supervisory review process regarding compliance with the CPNI rules for outbound marketing situations and will maintain compliance records for at least one (1) year.

FCC Notification

The Company is prepared to provide written notice within five (5) business days to the FCC of any instance where the opt-in mechanisms do not work properly or to such a degree that consumers' inability to opt-in is more than an anomaly.

Third Party Use of CPNI

Prior to allowing access to customers' individually identifiable CPNI to joint venturers or independent contractors, to safeguard CPNI UAT requires all such third parties to enter into a confidentiality agreement that ensure compliance with this Policy Statement and UAT shall also obtain opt-in consent for a customer prior to disclosing the information to such third parties. In addition, UAT requires all outside agents to acknowledge and certify that they may only use CPNI for the purpose for which that information has been provided.

UAT requires express written authorization from the customer prior to dispensing CPNI to new carriers, except as otherwise required by law.

UAT does not market or sell CPNI information to any third party.

Law Enforcement Notification of Unauthorized Disclosure

If an unauthorized disclosure of CPNI occurs, UAT shall provide notification of the breach within seven (7) days to the United States Secret Service ("USSS") and the Federal Bureau of Investigation ("FBI").

UAT shall wait an additional seven (7) days from its government notice prior to notifying the affected customers of the breach.

Notwithstanding the above, UAT shall not wait the additional seven (7) days to notify its customers if the Company determines there is an immediate risk of irreparable harm to the customers. UAT shall cooperate with the relevant law enforcement agency to minimize any adverse effects of such customer notification.

UAT shall maintain records of discovered breaches for a period of at least two (2) years.

Annual CPNI Certification

Pursuant to FCC regulations, 47 C.F.R. § 64.20089(e), UAT will annually submit to the FCC, prior to March 1st, a CPNI Certification of Compliance and accompanying Statement regarding UAT's CPNI policies and operating procedures. These documents certify that UAT complied with federal laws and FCC regulations regarding the protection of CPNI throughout the prior calendar year.
